### LEGISLATION ADOPTED

**S. 489 Finfish**—This Act's adoption supports a proactive and precautionary approach in natural resources management to help deal with the negative consequences of increasing pressures and environmental stresses placed on the state's marine finfish resources from unprecedented growth and development along the coast. Details of the new laws are as follows:

Additionally, this Act increases the daily bag limit on Red Drum from 2 to 3, while accordingly reduces the maximum length on the slot size from 24 to 23 inches.

##### Red Drum (spot tailed bass; redfish)

- Bag Limit: 3 per person per day
- Size Limit: 15 inch TL minimum to 23 inch TL maximum

**H. 3466 The "Public Waters Nuisance Abatement Act"/ River Shacks**—This Act declares all structures located upon any public waters of this State a nuisance, whether the structure is floating or is built upon pilings when the structure is being used, has been used, or is capable of being used as a place of habitation for any length of time; is not being used or is not capable of being used primarily as a means of transportation; and is not owned, occupied,

or possessed pursuant to a permit issued by the department. This includes, but is not limited to, watercraft not being used in navigation; however, this does not include registered or documented watercrafts that are capable of navigation and are legally anchored or legally moored to a dock or marina. Also specifically excluded from this definition are fishing camps, bait shops, restaurants, or other commercial establishments, marinas, or docks permitted under applicable South Carolina or federal law, which do not discharge sewage into the public waters of the State and are operated in conformance with the zoning ordinances, if any, of the municipality or county in which they are located.

**S. 132 Arkansas Blue Catfish Limit**—Provides that no more than 1 Arkansas blue catfish over 36 inches may be taken from the waters of Lakes Marion and Moultrie by any 1 person in 1 day, and provides that provisions of this section apply to commercial and recreational fishermen.

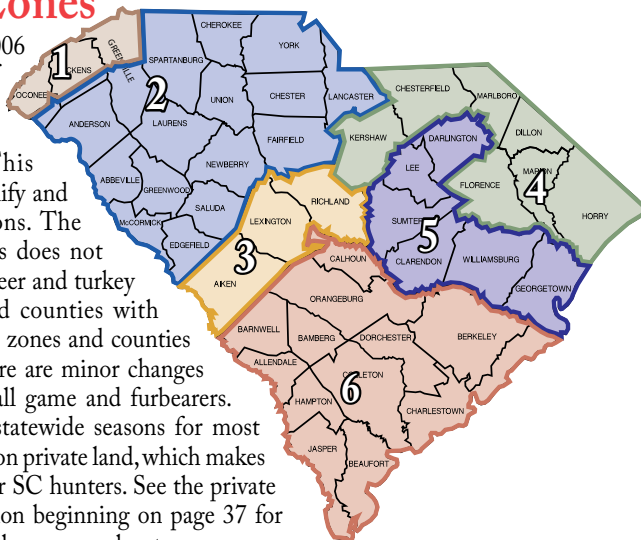

**S. 448 Prohibition on taking Elk**—This Act makes it unlawful to take or attempt to take elk (*Cervus elaphus*). A person convicted of violating the provisions of this section is guilty of a misdemeanor and, upon conviction, must be fined not more than twenty-five hundred dollars or imprisoned for not more than thirty days, or both.

**S. 597 Youth Hunting Days Age Guidelines**—This Act removes the minimum age of ten years old as a requirement to be a youth hunter. The new statute allows any person who is less than eighteen years of age to be a youth hunter so long as a licensed adult accompanies them at least twenty-one years of age who still may not harvest or attempt to harvest game during this special hunting event.

## New Game Zones

Legislation passed in 2006 with an effective date of July 1, 2007 reduced the number of Game Zones in SC from 11 to 6. This change was made to simplify and streamline hunting seasons. The reduction in Game Zones does not affect major seasons like deer and turkey season because zones and counties with the same seasons were the zones and counties that were combined. There are minor changes in seasons for certain small game and furbearers. However, now there are statewide seasons for most small game and furbearers on private land, which makes things more convenient for SC hunters. See the private land hunting seasons section beginning on page 37 for complete information for the area you hunt.

**S. 686 Fish Snagging Prohibition**—This Act makes it unlawful to take fish by snagging, pulling, or jerking a device equipped with one or more hooks through the water for the purpose of impaling fish within one thousand feet downstream of a hydroelectric dam. Nothing in this section prohibits the use of lures or baited hooks for the purpose of catching fish.

**H. 3233 Watercraft and Outboard Motor Property Tax**—This Act declares that used watercraft and outboard motors obtained from a licensed dealer on or after October 3, 2000, are free and clear of the lien for property taxes for property tax years before the 2000 property tax year. This act also provides that in addition to any applicable criminal penalties, a person falsely signing a certification that property taxes have been paid is subject to a fee of five hundred dollars and suspension of any title issued in the applicant's name by the department. The title can be reinstated upon proof to the department of payment of all taxes due and payment of the five-hundred-dollar fee to the department. The penalty section of this Act takes effect three years after this Act is approved.

## Get the Facts Before You Buy

## Advice on Eating Fish Caught in SC

The South Carolina Department of Health and Environmental Control (DHEC) and the South Carolina Department of Natural Resources (DNR) believe that fish are a healthy, low-fat source of protein. To make sure that the fish you catch are safe to eat, DHEC tests fish from lakes, rivers and streams throughout South Carolina.

To protect your health, DHEC issues fish consumption advisories in areas where contaminated fish have been found. For more information on the advisories, call DHEC, toll free, at 1-888-849-7241 or go to DHEC's web page at [www.scdhec.gov/fish](http://www.scdhec.gov/fish)

# Education Programs in South Carolina <http://ed.dnr.sc.gov/>

The SCDNR plans and directs education programs for students, teachers and the general public. Several programs have received national and state awards and are designed to meet the needs of teachers in grades K-12, as well as other non-formal education groups. For information about these programs, write: SCDNR, Education Programs, PO Box 167, Columbia, SC 29202, or call: 803-734-3885; Carolina Coastal Discovery Marine Education Program, 843-953-9359; Land, Water, and Conservation Education Programs, 803-734-4602; or visit <http://ed.dnr.sc.gov/>

## Boater Education

Boaters under age 16 are required by law to pass an approved boater education course before operating a personal watercraft (jet ski) or a boat powered by 15 h.p. motor or larger unless accompanied by an adult 18 years of age or older.

**South Carolina boaters can take a boating safety and education course three ways.**

**1. In a classroom** — Share the learning experience with other boaters and a qualified instructor. Contact DNR to locate the next classroom course in your area.

**2. On the internet** — The complete course, including the test, can be viewed or purchased online at [www.boat-ed.com](http://www.boat-ed.com) or through a link on the SCDNR home page, [www.dnr.sc.gov/education/boated.html](http://www.dnr.sc.gov/education/boated.html)

**3. By video** — You and your family can take a boater education course in the convenience of your home by purchasing an informative video and instruction manual. To order by phone, call 1-800-460-9698.

For more information on all boating courses call SCDNR at 1-800-277-4301 or visit our web site: [www.dnr.sc.gov](http://www.dnr.sc.gov)

If you are less than age 21 and plan to go boating in another state, check that state's operator requirements. The SC Basic Boating Course is approved and recognized by all states requiring courses. The boater education certificate is not a boating license.

## Hunter Education

All residents and nonresidents born after June 30, 1979, must successfully complete a hunter education course that is approved by the Department of Natural Resources (DNR) before a hunting license can be obtained. The hunter education certificate is not a hunting license.

The DNR encourages all hunters in South Carolina to be knowledgeable about their sport and safety-conscious when in the field handling firearms. For this reason, the DNR offers a 10-hour Hunter Education Course

which includes classroom instruction and hands-on experience in hunter safety and hunting techniques. In addition, students learn about hunting ethics, hunter/landowner relations, and basic conservation and wildlife management principles. The course is available to schools, clubs and the general public. A Home Study Course is available by calling 1-800-277-4301 or visit our web site: [www.dnr.sc.gov](http://www.dnr.sc.gov).

If you plan to hunt out of state, check with that state to find out if hunter education certification is required. The South Carolina hunter safety course is recognized by all states requiring certification.

## Trapper Education

The Trapper Education Course includes discussions on furbearer biology, history of the fur trade, wildlife management principles, fur harvest regulations and ethical conduct. This is not a "how to trap" course, but qualified instructors with the SC Trappers Association will discuss and demonstrate responsible trapping techniques.

For information contact the Furbearer Project at 803-734-3609.

## SC Reel Kids™

This program sets goals designed to be fun, educational and active for kids and youth up to age 16. SC Reel Kids work toward goals such as catching their first fish, learning about fish, and improving fish habitats. For their efforts, rewards and certificates are awarded in recognition of meeting program goals, providing kids with the incentive to complete either the Junior Master Angler or Youth Master Angler program. Once youth accomplish the Youth Master Angler status, they will also receive their first annual SCDNR fishing license free after their 16<sup>th</sup> birthday. For more information, visit [screelkids.dnr.sc.gov](http://screelkids.dnr.sc.gov).

## Take One Make One™

This program is an outdoor education and mentoring program aimed at developing South Carolina's youth and young adults, 12 to 27 years of age, through conservation education and adult mentoring, into lifetime participants in conservation, hunting, angling and shooting sports activities. Students are required to complete the SC hunter education safety course and are mentored by an experienced adult for a minimum of one year. There are no registration costs. Presentations, brochures and applications are available by calling 803-734-3995.

## Camp Wildwood

**Camp Wildwood** is a fun filled week where students can experience many aspects of their natural environment. It is a place to discover that we are part of nature and everything we do in some way affects the natural balance. At **Camp Wildwood**, you acquire the knowledge and appreciation needed for the protection and wise use of our natural resources.

**Camp Wildwood** is a place for learning self-reliance, self-discipline and independence in an outdoors setting. It is a place to build self-confidence in relationships with adults and peers, and a place to learn how to cooperate within a group. It is also a place to learn about the diversity of our natural resources and how many career choices there are in the environmental field.

**Camp Wildwood** is for 9th through 12th grade students and is in session for one week in June. Contact your local Garden Club, Wildlife Federation or the Department of Natural Resources for more information or visit the Camp Wildwood web site at [www.wildwoodfamily.com](http://www.wildwoodfamily.com)

## Becoming an Outdoors-Woman

The "BOW" program offers workshops that teach outdoor skills in a relaxed, non-intimidating atmosphere to women ages 18 years and older. More than 20 classes are offered, including: shotgun, rifle, firearms safety; deer, turkey, duck and small game hunting; freshwater, saltwater and fly fishing; birdwatching; canoeing; camping; backpacking; backyard habitat... and much more! For information on these workshops, hunts or other women's activities, contact SCDNR at 803-734-3885 or visit [scbow.dnr.sc.gov](http://scbow.dnr.sc.gov).

## National Hunting & Fishing Day

Once again, SCDNR and the S.C. Wildlife Federation have planned an event that will offer "hands-on" outdoor learning opportunities for every age group. Its focus will be to introduce newcomers to South Carolina's hunting and fishing traditions, as well as rekindle interest by existing hunters and anglers. South Carolina's National Hunting and Fishing Day celebration is free of charge and open to the public on the fourth Saturday in September from 9:00-4:00 at SCDNR's Cohen Campbell Fish Hatchery located at 1529 Fish Hatchery Road in West Columbia. For more information, contact SCDNR at (803) 734-4001.

# Invasive Aquatic Plants and Animals

Placement or introduction of some aquatic plants and animals into waters of South Carolina is environmentally unsafe. Some non-native species can rapidly reproduce and harm our waterways and our native aquatic life.

Preventing the introduction and spread of non-native, invasive species is the responsibility of all outdoor enthusiasts. Residents and visitors should be familiar with state and federal laws and regulations on possession, movement, and introduction of non-native plants and wildlife before introducing any living material into waters of South Carolina. Any intentional or unintentional introduction may be a violation of law.

Other than for research, under permit, it is not lawful to possess, sell, or place into any waters many water plants including hydrilla, water hyacinth, water lettuce, giant Salvinia, and any other plant on the state or Federal Noxious Weed list. Without a permit it is unlawful to introduce, import, possess, or transport for release any species of marine or freshwater fish or invertebrate not already found in the wild or not native to South Carolina. Exemptions are allowed for possession for exhibition purposes only by municipal zoos or parks, circuses, and public museums, scientific, or educational institutions.

The Department will not grant a permit unless it finds that the aquatic species was taken lawfully in the jurisdiction of origin and that the importation, release, or possession of the wildlife is not reasonably expected to adversely impact the natural resources or wildlife populations of South Carolina.

The Department may issue special import permits to qualified persons for research and education for specific types of non-indigenous freshwater fish, otherwise they are prohibited for

## Where to Look for Aquatic Hitchhikers on Boats

Regular cleaning of your boat, motor, and trailer before and after using all South Carolina waters can greatly reduce the spread of aquatic nuisance species. It takes just a minute to protect our waterways.

### When you leave a body of water:

- Remove any visible mud, plants, fish or animals before transporting equipment.
- Eliminate water from equipment before transporting.
- Clean and dry anything that comes into contact with water (boats, trailers, equipment, clothing, dogs, etc.).
- Never release plants, fish or animals into a body of water unless they came out of the body of water.
- Report aquatic weed problems in public waters to the Aquatic Nuisance Species Program, SCDNR (1-803-755-2872).

possession or sale. Examples include certain catfish, electric eel, walking catfish, piranha, stickleback, Mexican banded tetra, sea lamprey, and snakehead. Stocking and removal of non-reproducing white amur or grass carp hybrids are lawful, but only when approved by the Department. The importation of tropical fishes, reptiles, or amphibians for sale as pets generally does not require a permit; however, the importation or possession of a protected species is prohibited or allowed only under permit.

Because of the likelihood of shellfish disease introduction, it is unlawful to place oysters, clams, or mussels brought from other states into the saltwaters. Even open shells may have non-native animals attached or harbor diseases that will affect native shellfish. Shellfish growers may be permitted to import shellfish from safe waters.

# Point & Suspension Systems For Natural Resource Violations

South Carolina law has established suspension systems based upon the accumulation of points assessed for convictions of natural resource laws.

The Game and Fish Point System applies to violations inland of the saltwater/freshwater dividing line and if suspended under this system, a person cannot hunt, fish, gather, trap, land, or pursue game, fish, crustaceans, or shellfish in the State (including coastal waters out to the three mile limit).

The Saltwater Point System applies to violations within the coastal waters of the State. The point categories for assessments are recreational and commercial. Points are assessed according to the appropriate category. Upon accumulation of 18 or more points in the recreational or commercial categories, a person's privileges to fish, gather, land, attempt to take, or possess fish, shellfish, or crustaceans within the coastal waters for the purposes of the affected category, either recreational or commercial, will be suspended. Suspensions under the Saltwater Point System do not affect inland freshwater fishing privileges except for shad, herring, and sturgeon which are regulated by coastal laws inland of the saltwater/freshwater dividing line.

Each time a person is convicted of a violation listed in the point systems, the Department must assess the points against the person's record. Half of the points on record are reduced for each full year in which the person receives no points. The Department of Natural Resources must suspend the privileges of any person who has accumulated eighteen (18) or more points.

In addition to these point suspensions, South Carolina law also contains mandatory suspensions for convictions of specific violations of the law. These suspensions are called "Statutory Suspensions." See Table C for some specific examples of statutory suspensions.

## Note:

- *A violation of natural resources law while under suspension may result in additional suspensions of one year to five years.*
- *The purchase or procurement of a license, permit, stamp, or tag allowing suspended privileges while under suspension is a fraudulent purchase and is a misdemeanor punishable by a fine of up to \$1,025.00 and an additional one year suspension of hunting and fishing privileges.*
- *Failure to pay fines, restitution, may result in suspension of privileges.*

## Point System Suspensions and Appeals

Point system suspensions begin eleven (11) days after notice to the individual. A person who has been notified of a suspension may appeal the suspension to the Administrative Law Division. The request for appeals must be in writing and postmarked within ten (10) days of notification of the suspension. The appeal is limited to the accuracy of the points assessed and the identity of the violator. The Administrative Law Division cannot override a conviction and cannot allow a reduction of points unless the points are in error. To appeal a point suspension, write the S.C. Department of Natural Resources, Records and Intelligence Section, Law Enforcement Division, P.O. Box 167, Columbia, S.C., 29202 or call (803) 734-4002.

## Table C: Statutory Suspensions

Many laws pertaining to natural resources and boating contain mandatory suspensions. These suspensions start upon conviction and run for specified times according to law. These suspensions will affect privileges and may affect licenses, permits, stamps, tags or registrations. Examples of violations for which suspensions are mandated include, but are not limited to:

- A. Hunting from a public road . . . . 1 year;
- B. Unlawfully taking/possessing a wild turkey . . . . . 1 year;

The above listed violations are examples of statutory suspensions. Other more statutory suspensions exist with time periods ranging from 10 days to ten years for certain violations and certain privileges.

## Suspension Violations

Violation of suspension can add an additional three (3) to five (5) years to the original suspension date. In addition, some suspension violations require mandatory jail terms and may affect the right to own or be in possession of a firearm. Persons whose privileges are suspended are not eligible to hold licenses, permits, stamps, or tags. Purchase or procurement of licenses, permits, stamps, or tags while under suspension is a fraudulent purchase and is punishable by a fine up to \$1,025.00 and an additional one year suspension. To find out more information on suspensions, contact the S.C. Department of Natural Resources, Records and Intelligence Section, Law Enforcement Division, P.O. ## Freshwater/Saltwater Dividing Line

The dividing line between saltwater and freshwater on the rivers listed is defined in this section, and all waters of the rivers and their tributaries, streams, and estuaries lying seaward of the dividing lines are considered saltwaters, and all waters lying landward or upstream from all dividing lines are considered freshwaters for purposes of licensing and regulating commercial and recreational fishing. Except as otherwise provided below, the saltwater/freshwater dividing line is U.S. Hwy. 17:

- 1) On Savannah River the dividing line is the abandoned Seaboard Railroad track bed located approximately one and three-fourths miles upstream from the U.S. Hwy. 17A bridge.
- 2) Wright River is salt water for its entire length.
- 3) On Ashepoo River the dividing line is the old Seaboard Railroad track bed.
- 4) On New River the dividing line is at Cook's Landing.
- 5) Wallace River, Rantowles Creek, Long Branch Creek, and Shem Creek are saltwater for their entire lengths.
- 6) On Edisto River the dividing line is the abandoned Seaboard Railroad track bed near Matthews Canal Cut.
- 7) On Ashley River the dividing line is the confluence of Popper Dam Creek directly across from Magnolia Gardens.
- 8) On Cooper River the dividing line is the seaward shoreline of Old Back River at the confluence of Old Back River downstream from Bushy Park Reservoir.
- 9) Wando River is saltwater for its entire length.
- 10) On the Intracoastal Waterway in Horry County the dividing line is the bridge across the Intracoastal Waterway at the intersection of S.C. Hwy. 9 and U.S. Hwy. 17.

# Nongame Freshwater Fishing

## General Information

Nongame fishing permits and tags may be purchased from SCDNR only. Application may be obtained at [www.dnr.sc.gov](http://www.dnr.sc.gov) or by calling 803-734-3833.

Nongame fishing permits and tags are required, in addition to a valid South Carolina state fishing license (also applies to youth under 16), to use the following devices for recreational purposes: up to 3 trotlines with not more than 150 hooks, 3 to 50 set hooks, 3 to 50 jugs, up to 2 traps, 1 hoop net, 1 gill net no more than 200 yards in length or 5 gill nets, none of which exceed 30 yards in length, 1 skimbrow net, 1 seine, 1 minnow seine, or up to 2 eel pots.

This requirement applies to all freshwaters of the state inland of the saltwater-freshwater dividing lines, except privately-owned ponds.

Nongame fishing devices are not allowed in certain waters. The maximum number of devices allowed per area are shown in the Areas & Limits Section on page 21.

A tag must be attached to the device for which it was issued, and each permit and tag identification receipt must be in the licensee's possession while engaging in the activity.

Game fish must be immediately released if caught by net or trap or any other device used for catching nongame fish.

## Commercial Fishing

A commercial freshwater fishing license must be in possession to take catfish by any method from public waters and sell or offer for sale such catfish, and/or fish with the following nongame fishing devices: 2 or more gill nets (or 5 gill nets not more than 30 ft. in length), 2 or more hoop nets, 3 or more traps, trotlines with a combined total of 151 hooks or more, or 3 or more eel pots.

All persons involved in commercial catfish fishing must have a commercial freshwater fishing license if they participate in any way in the actual fishing operation. This includes, but is not limited to, operating a boat, baiting hooks, removing fish from lines, traps or nets. No more than one blue catfish over 36-inches can be taken from Lakes Marion and Moultrie in one day.

To qualify for a resident commercial freshwater fishing license, one must have been a resident of this state for the past 12 consecutive months and furnish proof to the SCDNR.

## Shad/Herring

To take shad for recreational purposes by hook and line, cast net, or skim bow net in freshwaters a person must have a freshwater fishing license. For other allowances and restrictions, see page 25. Commercial fishing for shad and herring in

freshwaters including for sale as bait and by use of gill nets is regulated under saltwater fisheries laws regardless of location within the state (Sec. 50-5-1500 and 50-5-1550). Contact the Charleston License office at (803) 953-9309 for commercial and gill net information.

## Nongame Freshwater Fishing Methods & Devices

Some devices are not permitted on certain waters. See Area & Limits on page 21 for devices and limits allowed in each area.

### Set Hooks

The muzzle shall have one of the following designs: A trap door on the second muzzle or catch muzzle which remains in a closed position and which only opens for the entry of fish into the trap; or constructed of netting so that the opening of the small end of the second muzzle or catch muzzle is held in the shape of a slit and the trap configuration constructed such that as the trap rests on the bottom, the slit shall be oriented horizontally with the greatest vertical opening being no greater than 1 inch.*

**Trap Type 2** - *The trap may be made of wood strips or slats and be cylindrical or rectangular in shape. The length shall not exceed 6 feet, and the width or diameter shall not exceed 2 feet. The throat opening of the catch muzzle in a resting position shall not exceed 3 inches measured in any direction. The sides, top and rear of the trap shall have a minimum of one inch opening between the slats to allow for the escape of small catfish. This shall apply only to the last 12 inches of the trap.*

**Eel pot** - *Pots no larger than 24 inches by 48 inches and constructed of wire with a mesh size no smaller than 1/2 by 1/2 inch, except for the throat or*

muzzle and the end opposite the throat or muzzle. The throat opening shall not exceed 2 inches measured in any direction.

The maximum length is 200 yards and no net, cable, line or other device used for support of the gill net can extend more than halfway across the stream or body of water. Nets must be marked with a white or yellow floating marker (See Markers and Identification).

**Permits/Regulations:** Gill nets shall be placed on a first-come basis, and no net can be placed within 200 yards of another gill net.

**Hours/Seasons:** The season for taking nongame fish other than shad and herring is Nov. 1 to Mar. 1 (where authorized) on Wednesdays, Thursdays, Fridays and Saturdays only. Fishing time begins at 12:01 am on Wednesday, and ends at midnight on Saturday.

## Markers and Identification

Trotlines, traps, eel pots and gill nets must be marked with a floating marker with a minimum capacity of one pint and a maximum capacity of one gallon or equivalent size and must be made of solid, buoyant material which does not sink if punctured or cracked. The floating markers must be constructed of plastic, PVC Spongex, plastic foam or cork. No hollow buoys or floats including plastic, metal or glass bottles or jugs may be used except manufactured buoys or floats specifically designed for use with nongame fishing devices; these may be hollow if constructed of heavy duty plastic material and approved by the SCDNR. The floating markers must be colored white when used the 1st through the 15th of the month and yellow when used the remainder of the month. The owner's name and address must be marked clearly on each floating marker.

Hoop Nets set on the Congaree River from the I-77 Bridge to the confluence of the Congaree and Wateree rivers must also be marked with the same floating markers as listed above.

## Bait

No game fish, live bait or any bait other than bait listed below shall be used with trotlines, set hooks and jugs: soap, doughballs, cut fish (nongame fish cut into at least three equal parts), shrimp, grapes or meat scraps (shall not include insects, worms and other invertebrates).

There are no restrictions on the type of bait permissible in traps or eel pots except that no game fish or parts thereof shall be used as bait.

## Prohibited Areas

No nongame fishing devices of any kind may be used in SCDNR-managed lakes (as listed on page 18), or waters within Game Zone 1, except in Lakes Hartwell and Keowee and Twelve-Mile Creek.

## Prohibited Practices

Possession or use on the freshwaters of this state of any device or gear designed or used to catch nongame fish not authorized by law is prohibited.

Possession of game fish or tackle designed to catch game fish is prohibited while fishing traps, trotlines, or other nongame fish devices except cast nets and bows and arrows.

It is unlawful for any person to tamper with,

fish, or use in any manner the nongame fishing device or gear owned and tagged by another person, or to take from any such device or gear, any fish caught thereon. No fishing device shall be used, placed, set or fished so as to create a hazard to boating.

No trotlines, traps or eel pots shall be placed within 200 yards of any permanent man-made structure on Lakes Marion and Moultrie nor placed anywhere in the Diversion Canal connecting Lakes Marion and Moultrie, the Tailrace Canal nor the area known as the Borrow Pit (also known as "Bar Pit") in Clarendon County.

## Penalties

The boat, motor, fishing gear and fish of any person who is charged with unlawfully fishing, using or having in possession a gill net or hoop net on any freshwater lake or reservoir shall be confiscated.

Any person who tampers with any non-game fishing device with intent to damage or to make it ineffective for the purpose of taking fish shall be fined not less than \$100 nor more than \$200 or imprisoned for not more than 30 days, and for stealing a device or fish caught in the device shall be fined not less than \$500 nor more than \$1,000 or imprisoned for not more than 6 months or both.

Upon the conviction of any commercial freshwater fisherman of illegal possession of game fish or the sale or traffic in game fish, SCDNR shall suspend such person's license or privilege to fish in this state for a period of one year.

Up-to-date regulations and information are provided when nongame tags and or permits are purchased. Tags, permits and Commercial Freshwater Fishing License must be purchased from the Columbia Office in person or by writing: FISH TAGS, PO Box 167, Columbia, SC 29202. The following laws pertain mainly to noncommercial saltwater fishing, shrimping, crabbing and shellfishing for personal consumption.

Individuals (age 16 and older) harvesting oysters or clams or individuals fishing for marine finfish from privately owned boats or when transporting catch in privately owned boats must purchase an annual or temporary Saltwater Recreational Fisheries License.

Fishing piers and chartered vessels charging a fee for fishing and those offering fishing boats for rent must purchase a Marine Recreational Fisheries license annually. Applications for Pier and Charter Vessel Licenses are available from the DNR office in Charleston.

## Don't be confused

Weakfish

Spotted Seatrout

As noted in the regulations information, weakfish and spotted seatrout, two species with similar appearances, have different size limits, 12-inches Total Length, and 14-inches Total Length respectively. To avoid angler confusion, biologists note a distinct characteristic between these two species is the rounded black spots visible on the spotted seatrout's body and fins.

## Use Circle Hooks

Anglers are reminded of the conservation benefits of using circle hooks. Because of their unique design, circle hooks almost always hook fish in the mouth, whereas other hooks are more likely to hook fish in the gut or gills. Fish hooked in the gut or gills will often die of injuries shortly after being released. By practicing catch and release with circle hooks, the fish that you release will help to conserve South Carolina's fish populations.

# 2007 Saltwater Recreational Fisheries License Report

## Introduction

The South Carolina Recreational Fisheries License Program, since its inception in July 1992, has provided significant benefits to the state. Allocated funds continue to support programs, activities, and resource management functions that are of great value to the protection, maintenance, enhancement, and enjoyment of healthy and diverse marine recreational fisheries, associated fish stocks, and marine habitats. The original Marine Recreational Fishing Stamp program was modified in 2002 to give South Carolina resident and out-of-state anglers a variety of license options to choose from. The modification has allowed for revenues to double, which provides additional support for activities important to state saltwater recreational anglers.

As of May 2007, approximately 1,415,457 individual saltwater stamps/licenses have been sold to marine recreational anglers over the course of the program's existence. Between 1992 and 2002, over 48,000 individual saltwater fishing stamps have been sold to collectors, and nearly 13,000 prints of the original artwork for these stamps have been sold to art collectors and conservationists. Since July 2007, 119,255 individual saltwater recreational licenses of all available types have been purchased, resulting in the generation of approximately \$1.16 million total, the vast majority of which by law must be used to benefit saltwater recreational fisheries for the state. The following are highlights of the activities, projects and programs carried out by the Marine Resources Division that received support from the Saltwater Recreational Fisheries License Program over this past fiscal year.

## FY 2007 Highlights

**Artificial Reefs** – Nineteen artificial reef construction projects were completed on permitted reef sites along the coast during the year, including the addition of 4 tug boats, 2 deck barges, 600 concrete reef units, 37 armored personnel carriers and 8 reef balls. In addition to these activities, the Cooper River Bridge Demolition Project concluded with 25 additional deployments of material during the past fiscal year. Over 240,000 tons of concrete and steel bridge rubble from the demolished Cooper River Bridges were placed on 12 different permitted reef sites. Additionally, 5,000 tons of smaller sized rubble were placed around the new Mt. Pleasant Observation/Fishing Pier to create an inshore reef accessible to pier anglers. Routine monitoring and assessment of numerous reefs were conducted, and 5 new or missing reef buoys were deployed on estuarine and offshore reefs. The new SC artificial reef guide, which includes detailed maps with coordinate locations, was completed and distributed to numerous tackle and dive shops as well as to various fishing clubs throughout the state. – \$157.6K

**Marine Fish** – SCDNR's Marine Gamefish Tagging Program continues to promote angler ethics and conservation through the support of license-generated funds. Last year, participants tagged 1,795 fish. Information was received from 225 recaptured fish. The top species tagged and released was red drum, followed by weakfish, reflecting a change in tagging effort toward species where more data are needed. Another important component in SCDNR's effort to maintain high quality fishing opportunities is our effort to monitor recreationally important species. Staff collect size, age, and reproductive information from a variety of species. Information is collected using gear designed to catch and record data in a standardized, repeatable fashion using long-lines to catch large adult red drum offshore, trammel nets to catch smaller juvenile red and black drum, flounder, sheepshead, and seatrout inshore, and electro-shocking in estuarine waters farther upstream. SCDNR fisheries biologists also visit fishing tournaments and manage fish drop-off freezers in several locations where participating anglers can donate specimens for scientific study. Over the past year, staff visited 4 fishing tournaments and obtained useful biological information on 362 fish. Recreational anglers donated 265 additional fish through the drop-off freezer program, and returned

tags from 523 fish that were tagged by SCDNR biologists. Another useful and popular program supported through saltwater recreational fisheries license funds is SCDNR's red drum stocking research program. Time and patience are necessary for managing a healthy brood stock and conditioning them to spawn on cue. Larvae that are produced must then be carefully maintained in ponds or tanks, marked so they can later be identified as hatchery-raised fish, and then transported to the stocking area. During FY2007, over 1.9 million red drum were released as part of a license funded project. Specifically, 1,943,905 small juvenile fish were released in the Colleton and North Edisto rivers; 5,000 six to thirteen-inch fish were released at Bennett's Point and Wiggins boat landings; 1,000 thirteen-inch fish were stocked in the Little River Inlet; and 500 legal sized fish (>15 inches) were released in the Ashley River. Non-lethal sampling using cutting edge genetic techniques are being used to distinguish between wild and stocked fish, allowing fish to be caught by other anglers another day. Additionally, this project has expanded its cooperating angler program, which now includes 253 anglers who have produced 750 genetic samples. An effort to monitor populations of various species of coastal sharks was continued this year with sampling conducted from Winyah Bay to Port Royal Sound. The data collected from this project will help increase our understanding of the importance of SC estuaries to maintain healthy stocks of various shark species and the dynamics and movements of these populations. Additionally, a recreational fisheries survey was conducted to learn more about the opinions and attitudes of saltwater license holders towards finfish stocks and regulations. – \$421.7K

**Oysters** – Over 43,167 bushels of shell were planted on 7 public and state shellfish grounds during FY2007. Eighteen shell recycling sites, located throughout the coastal zone, continue to serve as collection points for donated shell, allowing the public to participate in oyster reef restoration and enhancement in recreational harvesting areas. SCDNR biologists are also testing new and better ways to enhance and restore local shellfish beds. Researchers are testing different ways to place shell on banks, covering some of the shell with different materials to reduce erosion and are using volunteers to build and monitor oyster reefs in different areas and under different conditions. Additionally, license money has helped researchers expand their statewide assessment of oyster recruitment. Shellfish maps are available to the public free of charge by writing: Recreational Shellfish Maps, Shellfish Management Program, SCDNR, P.O. Box 12559, Charleston, SC 29442-2559, by calling (843) 953-9854, or from the SCDNR Web site ([www.dnr.sc.gov](http://www.dnr.sc.gov)), click on "Marine", then "SC Public Shellfish Grounds." – \$273K

**Education, Information, Outreach** – The saltwater license website ([HTTP://SALTWATERFISHING.SC.GOV](http://SALTWATERFISHING.SC.GOV)) continues to provide the public with updated information on rules and regulations and saltwater fishing related news. The website averages about 75,000 hits per month. The Coastal Informational Distribution System (CIDS) continues to distribute educational publications to numerous tackle shops, fishing piers, and marinas along the coast. The Carolina Coastal Discovery (CCD) Marine Education Program continues to provide vessel and land based education activities operating out of the Marine Resources Division and SCDNR facilities in the Ashepoo-Combahee-Edisto (ACE) Basin, conducting nearly 90 education programs in FY2007. The CCD Program's education initiatives included marine animal dissections, a shorebird and waterfowl program, barrier island activities, catch and release angling programs, and a volunteer Monofilament Recycling Program. Additionally, CCD helped launch a new Public Event Series to help reflect ongoing research and management projects of the SCDNR, including highlighting various license-funded projects. CCD Program information and application forms are now available online at [www.dnr.sc.gov/ccd/](http://www.dnr.sc.gov/ccd/) – \$130K

# Hunting Rules & Regulations

**Regulations in this section apply to both private and public lands statewide, unless otherwise specified.**

Licenses and permits are required for hunting in South Carolina. Detailed information on the types of licenses and permits is located in the License Fees chapter of this book. All residents and nonresidents born after June 30, 1979, must successfully complete a hunter education course that is approved by the Department of Natural Resources (DNR) before a hunting license can be obtained.

## Basic Information on Hunting:

Hunting is defined as trying to find, seek, obtain, pursue, or diligently search for game.

**Game Zones & WMAs** - South Carolina is divided into six game zones, as defined on the map below.

DNR sets and regulates the methods of harvest, bag limits and other requirements for hunting on Wildlife Management Areas (WMA) and for deer on private lands within game zones 1 & 2. This area encompasses the upstate counties and includes the Mountain, Central and Western Piedmont hunt units.

The SC General Assembly establishes seasons, limits and methods for private land in all of the other game zones (3-6) which encompass the midlands and lower coastal counties. DNR regulates WMA lands within these counties and is responsible for law enforcement statewide.

**Protected Game** - The following species may be hunted **ONLY** during legally established seasons: bear, beaver, bobcat, deer, fox, mink, muskrat, opossum, otter, rabbit, raccoon, skunk, squirrel, weasel, waterfowl (goose, brant and duck), bobwhite quail, mourning dove, rails (marsh hen), coot, gallinule, ruffed grouse, crow, wild turkey, common snipe and woodcock.

**Protected Nongame** - The following species are protected and may not be hunted, molested, caught, transported, sold or possessed in any manner: Alligators, birds of prey (eagles, hawks,

osprey, owls, kites and vultures), nongame birds (except English sparrows, pigeons and starlings) and cougars (also known as pumas or mountain lions).

Falconers must possess a SCDNR permit.

**Alligators** - It is unlawful to feed or entice an American alligator with food (50-11-750).

Alligators may only be taken and/or possessed under authority of a permit issued by SCDNR. Such permits are issued to participants in the Private Lands Alligator Management Program and under the Nuisance or Emergency Alligator Management Program. For information about the program and licensing requirements for taking, possession and sale of alligators or their products call (803) 734-3938.

**Armadillos** are not a protected species, however, a hunting license is required to hunt armadillos. Harvesting armadillos on WMA lands is limited to the current open season and weapons that are in effect for game species on the WMA.

**Bear** - It is unlawful to buy, sell, barter or exchange a bear or bear part. Transportation of a freshly killed bear or bear parts is unlawful except during bear season. Any person violating these offenses must be fined not more than \$2500 or imprisoned for not more than 2 years, or both, and hunting and fishing privileges must be suspended for 3 years. It is unlawful to feed bears or to hunt bears by the aid of bait (50-11-430, 50-11-440, 50-1-130).

All harvested bear must be reported to the SCDNR Clemson office or 864-654-1671, ext. 19 within 24 hours of harvest.

Participants in party dog hunts for bear must register before Sept. 15 with SCDNR. 25 members maximum per party. Write: SCDNR Bear Registration Permit, 153 Hopewell Rd., Pendleton, SC 29670.

**Crows** - A hunting license and free Migratory Bird (HIP) Permit are required to hunt crows. Crows are migratory birds and as such, are a federally protected species. The season is based on criteria established by the US Fish and Wildlife Service. The open season for crows on private lands in South Carolina is November 1 - March 1, there is no bag limit. During the open season on private lands crows may be taken with any firearm, bow and arrow, or by falconry. Crow hunting on WMA lands is permitted. During the open season for small game hunting on WMAs, crows may only be hunted with weapons legal for small game. In Game Zone 1 no buckshot or rifles greater than .22 rimfire may be used except during deer and bear season (50-11-380). The use of electronic calls for crow hunting is permitted statewide on private land and WMA

land. Crows damaging crops may be taken at any time without a federal permit (50 CFR 21.43).

**Deer** - Legal hunting time for deer is the time between one hour before official sunrise until one hour after official sunset (50-11-710).

It is unlawful to hunt, shoot or in any way kill deer from a motorboat, raft or any other water conveyance, or to molest deer while any part of the deer is in water.

Possessing any deer with the head detached while in transit from the point of kill is prohibited.

It is unlawful to hunt deer within 300 yards of a residence without permission of the owner and occupant, except that a landowner may hunt on his own land.

Archery, muzzleloaders and crossbows are allowed during gun hunts.

**Antlerless Deer** - An antlerless deer is defined as a deer with no antlers or an antlered deer with less than two inches of antler visible above the hairline (50-11-410).

Antlerless deer may not be possessed, hunted, shot or in any way killed except during special seasons or by special permit.

**Antlerless Deer Harvest Programs** are conducted statewide using either-sex days and 2 optional antlerless deer tag programs. The dates for either-sex days are shown in the hunting season section beginning on page 37.

Optional antlerless deer tag programs that hunters may choose to participate in include the **Individual Antlerless Deer Tag Program** and the **Antlerless Deer Quota Program (ADQP)**. Both programs are in effect statewide (50-11-390).

With the **Individual Antlerless Deer Tag Program** hunters can purchase either 2 or 4 tags per person, for \$5 each, which can be used on any day open to deer hunting with the following Game Zone restrictions: **Tags are not valid in Game Zone 1 (Mountains)**. In Game Zone 2 (Piedmont) tags are valid on public and private land starting Oct. 1. In **Game Zones 3-6 (Coastal Plain)** tags are valid on private lands only starting Sept. 15. Tags are also valid on Sand Hills State Forest WMA in Chesterfield Co., North Dike WMA in Berkeley Co., Longleaf Pine WMA in Lee Co and Francis Marion National Forest in Berkeley and Charleston Cos. during still gun hunts for deer starting Sept. 15. Tags do not have to be used on scheduled either-sex days. Tags are not valid on properties enrolled in the Antlerless Deer Quota Program. Tags do not alter the daily or seasonal bag limits prescribed for Game Zones.

All persons purchasing tags in past years will be sent a renewal notice in August. New applicants may complete the application provided on page 53 or contact DNR Deer Project at 803-734-3886

## South Carolina Game Zones

to receive an application. The possession and use of these tags are limited to the purchaser.

**Antlerless Deer Quota Program** - Antlerless deer quotas are issued to qualifying land owners or lessees statewide who complete and submit an application along with a \$50 fee prior to July 18, each year. This program is generally better suited for landowners or lessees with larger acreages. Under the ADQP, a quota of tags is issued for a particular tract of land based on criteria including; density of the local deer population, condition of the local deer population, the size of the tract of land, and the recreational and agricultural objectives of the property owner.

Utilization of tags issued under the ADQP is subject to the following Game Zone restrictions. Game Zone 1 (Mountains) tags are valid beginning Oct. 1. Game Zone 2 (Central & Western Piedmont) and Game Zones 3-6 (Coastal Plain) beginning Sept. 15. Tags issued for a particular tract of land can only be used on that tract and they must be used on all antlerless deer that are harvested including antlerless deer harvested on either-sex days or by bow and arrow in Game Zones 1, 2, & 5. Tags do not alter the daily or seasonal bag limits or use of weapons during special weapons seasons in Game Zones 1 & 2. A harvest report must be completed by the applicant at the close of the season.

**Feral Hogs and Coyotes** - A hunting license is required to hunt feral hogs and coyotes. Coyotes may be hunted at night only as prescribed in the "Night Hunting" section on the following page. Hogs may not be hunted at night. There is no closed season or weapons restrictions for hunting feral hogs and coyotes on private lands statewide with the following exceptions; in Game Zone 1 it is unlawful to have in possession any firearm loaded with buckshot or larger shot or a rifle or ammunition greater than .22 rimfire except during deer and bear season (50-11-380). Feral hog and coyote hunting on WMA lands is permitted during any open season for game unless otherwise restricted. (See individual WMAs.) On WMA lands, weapons used to hunt hogs and coyotes are limited to the weapon(s) that are allowed for the current open season on the WMA - see WMA seasons listing in the Game Zones sections beginning on page 44. No Sunday hunting on WMA lands. The use of electronic calls for feral hog and coyote hunting is permitted statewide on private and WMA lands. Dog hunting for feral hogs and coyotes is allowed year-round on private lands statewide. Deer may not be hunted with dogs on any WMA lands in Game Zones 1 & 2. On WMA lands in Game Zones 1 & 2 feral hogs and coyotes may not be hunted with dogs during still gun hunts for deer or bear. The possession or transport of live coyotes is allowed only by permit from SCDNR. No hogs may be taken live from any WMA in the state. It is unlawful to release or transport for the purpose of release, hogs for hunting purposes or in an attempt to establish or supplement a free roaming population (50-16-25).

**Importation & Possession** - It is unlawful to import, possess or transport for the purpose of release or to introduce or bring into this state any live wildlife of the following types without a permit from the department: a member of the family Cervidae (deer, moose, elk, etc.), coyote, bear, turkey, furbearers (fox, raccoon, opossum, muskrat, mink, skunk, otter, bobcat, weasel and beaver), a nondomestic member of the families Suidae or Tayassuidae (pigs), Bovidae (bison, mountain goat, mountain sheep). 50-16-20

The importation or sale of live wolves is prohibited in South Carolina, except for exhibition or scientific purposes upon the approval of SCDNR as provided by regulations. It is unlawful to import coyotes. The sale of coyotes is allowed only by permit from SCDNR (50-11-2630). A person may not have a live wolf in his possession without a SCDNR permit.

*Note: DNR does not advocate or encourage keeping wildlife in captivity.*

**Turkey** - Season dates: Game Zone 6 private land only, March 15-May 1. Game Zones 1, 2, 3, 4, 5, and selected Wildlife Management Areas, April 1-May 1. No Sunday hunting on WMA's. Turkey tags and brochures containing regulations, season dates and limits available in March through DNR offices and Big Game Check Stations only. Must present hunting license and big game permit to receive tags.

**Small Game** - Small game includes the following species: quail, squirrel, rabbit, raccoon, opossum, fox, beaver, bobcat, mink, muskrat, otter, skunk, grouse and weasel. Unless otherwise specified in the small game seasons charts on page 38, hunt dates for these species are from Thanksgiving day through March 1.

**Migratory Birds** - Migratory birds include: mourning dove, marsh hens, rails, woodcock, common snipe, common moorhens, purple gallinules, ducks, mergansers, sea ducks, coots, blue & snow geese, brant, Canada geese and crows.

Effective July 1, 1998, anyone over 16 or all licensed hunters hunting migratory game birds in the United States must have a HIP permit and complete a short questionnaire before hunting. Free permits are available at license vendors.

Seasons, shooting hours, limits, and other special restrictions on migratory bird hunting are set by SCDNR in accordance with guidelines set by the U S Fish & Wildlife Service. Detailed information on the seasons and restrictions is provided in a separate Migratory Bird Brochure available in September.

Listed below are frequently requested rules for hunting migratory birds.

- Shotguns must be plugged so as to hold no more than 3 shells.
- Baiting or hunting over bait is strictly prohibited.
- All hunting hours end at official sunset.
- The possession of lead shot is prohibited while waterfowl hunting.
- State and Federal Waterfowl stamps are

required for hunting ducks, geese, coots and gallinules. (See exceptions in License section on page 11)

Refer to the Migratory Bird Brochure for complete information on particular species and other restrictions.

**Bird Dog Training** - Bird dogs may be trained year-round on private land. Trainers must have a valid hunting license and may only use firearms with blank ammunition during the closed season for quail. A Bird Dog Trainer's License is available to persons engaged in the business of training bird dogs in return for money, goods or services. This license allows a trainer and two assistants to take pen-raised quail during the closed season while training dogs. Applicants must provide documentation of land areas to be used for training. For information, or to obtain a license, contact SCDNR Small Game Project at P.O. Box 167, Columbia, SC 29202 or call 803-734-3609.

**Calls, recorded or electronically amplified** - It is illegal to hunt, catch, take, kill or attempt to hunt, catch, take or kill any game bird or game animal with the aid of recorded calls or sounds or recorded or electronically amplified imitations of calls or sounds. Crows, coyotes or hogs are not game birds/animals and therefore can be hunted using electronic calls during daylight hours on private lands and WMA lands.

**Crossbows** - Crossbows, blow guns, dart guns or drugged arrows are prohibited on WMAs except as provided in WMA Regs, Weapons 3.2 on page 33. Crossbows may be used on private lands and WMA lands statewide during firearms and muzzleloader season only for deer and bear. Any person 62 years of age or older may use a crossbow to hunt during seasons when the use of archery & muzzleloaders are authorized for hunting. Crossbows are also legal for use statewide during any open season for deer (including archery only seasons), turkey, or bear by a person who suffers from an upper limb disability, provided the person while hunting has in immediate possession a written statement certifying the disability. The statement, based on a physical examination by the certifying neurologist, orthopedist, or rheumatologist shall describe the disability and shall state the person is not capable of operating archery equipment or a bow and arrow. A copy of the statement must be provided to the department prior to hunting with a crossbow. Mail doctor's statements to: SCDNR, Wildlife & Freshwater Fisheries, P.O. Box 167, Columbia, SC 29202. (50-11-565)

**Deer Processors** - It is unlawful to keep any deer in cold storage or refrigerating plants unless the carcass is clearly marked with the hunter's name, address, and hunting license number (50-11-1700). This does not apply to storage at a private residence or to deer that have an Individual Antlerless Deer Tag Program tag attached to the hamstring since the hunters name, address, and tag number appears on the face of the tag. Deer processors should recognize that it is unlawful to sell deer meat to regain

the processing fee for deer that have not been picked-up by the owner (50-11-1910). The best practice is to take a deposit for the processing service when deer are left at the facility. If meat is not picked-up by the owner it can be given to another individual at no charge.

**Field Trials** - It is unlawful to conduct or participate in any field trial unless a permit for such trial has been obtained from SCDNR. Requests for field trial permits must be submitted to SCDNR at least 14 days prior to the proposed trial date. Requests shall include payment of \$5 per trial and the time and location of the proposed trial. A charter or document indicating that the trial is sanctioned by a nationally recognized field trial organization must accompany all requests for field trial permits. For information, or to obtain a permit, contact SCDNR Small Game Project at P.O. Box 167, Columbia, SC 29202 or call 803-734-3609.

**Hunting from Public Roads** - It is unlawful to hunt from a public road unless the hunter has permission to hunt the adjacent property. Hunting as used in this section includes possessing, carrying, or having readily accessible, a loaded centerfire rifle, or a shotgun loaded with shot size larger than number four. Loaded means a weapon within which any ammunition is contained. This does not include weapons contained in a closed compartment, closed vehicle trunk, or a vehicle traveling on a public road. A person convicted of unlawful road hunting forfeits hunting privileges for one year. See **WMA Regulations Page 33** for restrictions on WMA lands.

**Negligent Hunting** - It is unlawful to use a firearm or archery tackle while in preparation for, engaged in the act of, or returning from hunting in a criminally negligent manner. Criminal negligence is defined as the reckless disregard for the safety of others.

**Night** - Night is defined as that period of time between one hour after official sunset of a day and one hour before official sunrise of the following day. (50-11-710)

**Night Hunting** - Night hunting is unlawful except that raccoons, opossums, foxes, mink, coyotes and skunk may be hunted at night; however, they may not be hunted with artificial lights except when treed or cornered with dogs. No buckshot or any shot larger than a No. 4, or any ammunition larger than 22 rimfire may be used. It is unlawful to use artificial lights at night, except vehicle headlights, while traveling in a normal manner on a public road or highway, while in possession of or with immediate access to both ammunition of a type prohibited for use at night and a firearm capable of firing the ammunition. (50-11-710). Rabbit hunting at night without weapons is lawful on private land.

**Rabbit Boxes** - It is unlawful for any person to trap rabbits, except that a landlord or tenant may use not more than five rabbit boxes on lands on which he has exclusive control during the gun season for rabbits. A hunting license is required to use rabbit boxes. Rabbit boxes are not

permitted on WMA lands (50-11-160).

**Running Seasons (No gun season)** - During any period when rabbits, raccoons, opossums, squirrels or fox may be hunted without firearms, it is illegal to hunt such game when carrying on ones person or in ones vehicle any firearm.

**Shining** - In all game zones the use of artificial lights for the purpose of observing or harassing wildlife is unlawful. However, this section does not prohibit an owner of real property or a person with a legal interest in real property from the use of artificial lights for the purpose of surveying or protecting the property. (50-11-708)

**Selling Game Animals** - It is unlawful to sell, except by special permit, any protected wildlife. Furbearing animals may be sold with a valid commercial fur harvest license. Contact DNR for a copy of the commercial fur harvest regulations.

**Sunday Hunting** - Hunting is prohibited on Sundays on all WMA lands. On private lands statewide Sunday hunting for all game is legal except bear hunting which is prohibited on Sundays in Game Zone 1.

**Transporting Firearms** - There are no SCDNR restrictions on transporting firearms by licensed hunters and fishermen in a vehicle to and from the place of hunting and fishing except on WMA lands. For regulations on WMA lands see Weapons 3.4 on page 33.

**Trapping** - Regulations are available in a separate brochure.

**Trespass** - It shall be unlawful to enter upon the lands of another for the purpose of hunting, fishing, trapping or retrieval of dogs without the consent of the landowner or manager.

## WMA Public Drawing Hunts

The SCDNR offers a variety of WMA hunts through computerized drawings. Hunt fees range from \$10 to \$100 per hunter and must be submitted at the time of application. Applications for deer hunts are available in July, waterfowl and quail hunts in September, and youth/adult only turkey hunts in February. Deadlines to apply for draw hunts are generally mid-August (deer), mid-October for quail and waterfowl and early March for youth turkey hunts. Applications are available at SCDNR offices statewide (refer to directory on page 61) or write SCDNR Public Drawing Hunts, PO Box 167, Columbia, SC 29202 or visit our web site at [www.dnr.sc.gov/hunting/drawhunts.html](http://www.dnr.sc.gov/hunting/drawhunts.html)

### GENERAL REGULATIONS

On all DNR owned WMA lands the removal of artifacts or ecofacts (including arrowheads) from the surface or subsurface is prohibited except when approved by the State Historic Preservation Office and carried out in accordance with their guidelines.

See page 36 for regulations on private lands in Game Zones 1 & 2.

Statutes 50-11-2200 and 50-11-2210 authorize the promulgation of WMA regulations. See specific game zones for seasons.

**2.1** Except as provided in these regulations, it is unlawful to hunt or take wildlife on areas designated by the South Carolina Department of Natural Resources (SCDNR) as Wildlife Management Area (WMA) lands.

**2.2** Entry onto WMA land is done wholly and completely at the risk of the individual. Neither the landowner or the State of South Carolina nor the South Carolina Department of Natural Resources accepts any responsibility for acts, omissions, or activities or conditions on these lands which cause or may cause personal injury or property damage.

"Baited area" means an area where bait is directly or indirectly placed, deposited, exposed, distributed, or scattered and the area remains a baited area for ten (10) days following the complete removal of all bait.

**2.7** On WMA lands construction or use of tree stands is prohibited if the tree stand is constructed by driving nails or other devices into trees or if wire is wrapped around trees. Other tree stands and temporary screw-in type climbing devices are permitted provided they are not permanently affixed or embedded in the tree.

**2.8** On WMA lands any hunter younger than sixteen (16) years of age must be accompanied by an adult (21 years or older) who is validly licensed and holds applicable permits, licenses or stamps for the use of WMA lands. # The Heritage Trust Program: Heritage Preserves

[www.dnr.sc.gov/managed/heritage.html](http://www.dnr.sc.gov/managed/heritage.html)

## The Heritage Trust Program

The Heritage Trust Program, part of the Habitat Protection Section of the SCDNR's Land, Water and Conservation Division, has acquired 69 Heritage Preserves encompassing 81,320 acres statewide. Heritage Preserves are managed by the Wildlife and Freshwater Fisheries Division. Heritage Preserves protect significant natural and cultural resources. Public recreation is allowed on most preserves.

Twenty-four preserves (52,032 acres: 64% of the total acreage in the Heritage Trust Program) are also Wildlife Management Areas; these are open to public hunting in accordance with certain guidelines. Hunting is not allowed on the remaining preserves because of their small size, public safety factors or other legal, security, or biological factors.

Many roads are gated because Heritage Preserves contain unique, sensitive and rare elements vulnerable to vehicular and inordinate foot traffic. Bag limits and season lengths on Heritage Preserves are set with the aim of restoring or maintaining ecological integrity. Hunting, besides being an important cultural and recreational activity, is an important management tool on and near certain heritage preserves. The Heritage Trust Program has followed the lead of several other WMAs and prohibits fox squirrel hunting.

Cultural resources are strictly protected on heritage preserves. All projectile points (arrowheads) are protected. It is illegal to take or otherwise disturb any cultural resource or to possess a metal detector on any Heritage Preserve.

All snakes (including venomous snakes) and other reptiles and amphibians, as well as any non-game plant or animal, are protected on all Heritage Preserves. It is illegal to harm or harass any of these animals or disturb plants.

## SCDNR Heritage Preserve Regulations

1. Visitation and use of Heritage Preserves are governed by regulations to promote public enjoyment of the land while preserving the features that make them special.
2. Heritage preserves are open for public use from one hour before sunrise to one hour after sunset unless otherwise posted or publicized. Exceptions may occur for a special hunting season or field trip, in

- designated camping areas or for approved research or other projects.
3. Parking is allowed only for preserve visitors and only in designated areas (which may be parking lots and/or roadsides, depending on the preserve). Any other parking is prohibited. No vehicle shall block any road, regardless of whether the road is gated.
4. Collection, removal, possession of, or damaging or destroying any nongame animal, plant, rock, fossil, artifact, or ecofact, or the possession of a metal detector on a Heritage Preserve are all prohibited without written permission from the SCDNR.
5. No person shall abuse, damage, deface or destroy land, structures, signs or improvements on a Heritage Preserve.
6. There shall be no placement of trash, debris, rubbish, waste, or chemicals on preserves.
7. The consumption or display of any alcoholic beverage while operating or riding as a passenger in any vehicle and public drunkenness are not allowed. Alcoholic beverages may only be consumed by a person of lawful age only while camping at a designated campsite.
8. Camping and fires are not permitted unless areas have been designated or special written permission from SCDNR has been granted.
9. All terrain vehicles (ATVs) are prohibited on all Heritage Preserves.
10. Motorized vehicles are allowed only on designated roadways. Bicycles, horses and other conveyances are allowed only on designated trails of specified preserves.
11. Hunting is allowed only on designated preserves and only in accordance with Wildlife Management Area regulations.
12. Firearms are not allowed, except on heritage preserves designated as Wildlife Management Areas and then only in accordance with Wildlife Management Area regulations or as otherwise provided by state law. Target and other practice shooting are prohibited.
13. No plants, animals or other organisms may be introduced on the property.
14. All or part of a Heritage Preserve may be closed to the public to protect a species, or natural, cultural, historical or archaeological features.
15. A violation of any Heritage Preserve regulation is punishable under SC Code of Laws 51-17-130.

# Wildlife Management Areas [www.dnr.sc.gov/wma/](http://www.dnr.sc.gov/wma/)

## WMA Program

Through the cooperative effort of private landowners, the U.S. Forest Service and the SCDNR, Wildlife Management Areas (WMAs) are provided for the enjoyment of all wildlife enthusiasts. Funds generated from the sale of WMA permits enable DNR to lease approximately 1.1 million acres of land for wildlife conservation and management.

Heritage Preserves are properties acquired by SCDNR for the primary purpose of protecting habitat for rare and endangered species. Some Heritage Preserves offer game hunting opportunities, and, therefore, are included in the WMA Program.

All persons using WMA lands are reminded that only U.S. Forest Service lands and those areas marked by WMA signs are open to the

public. Lands not posted with these signs are the property of private individuals, and landowner permission must be obtained.

General locations of the areas described below are shown on the map on pages 42-43. For detailed maps showing these and other WMA lands write WMA MAPS, SCDNR, P.O. Box 167, Columbia, SC, 29202 or call 803-734-3886.

## Wildlife Management Area Properties

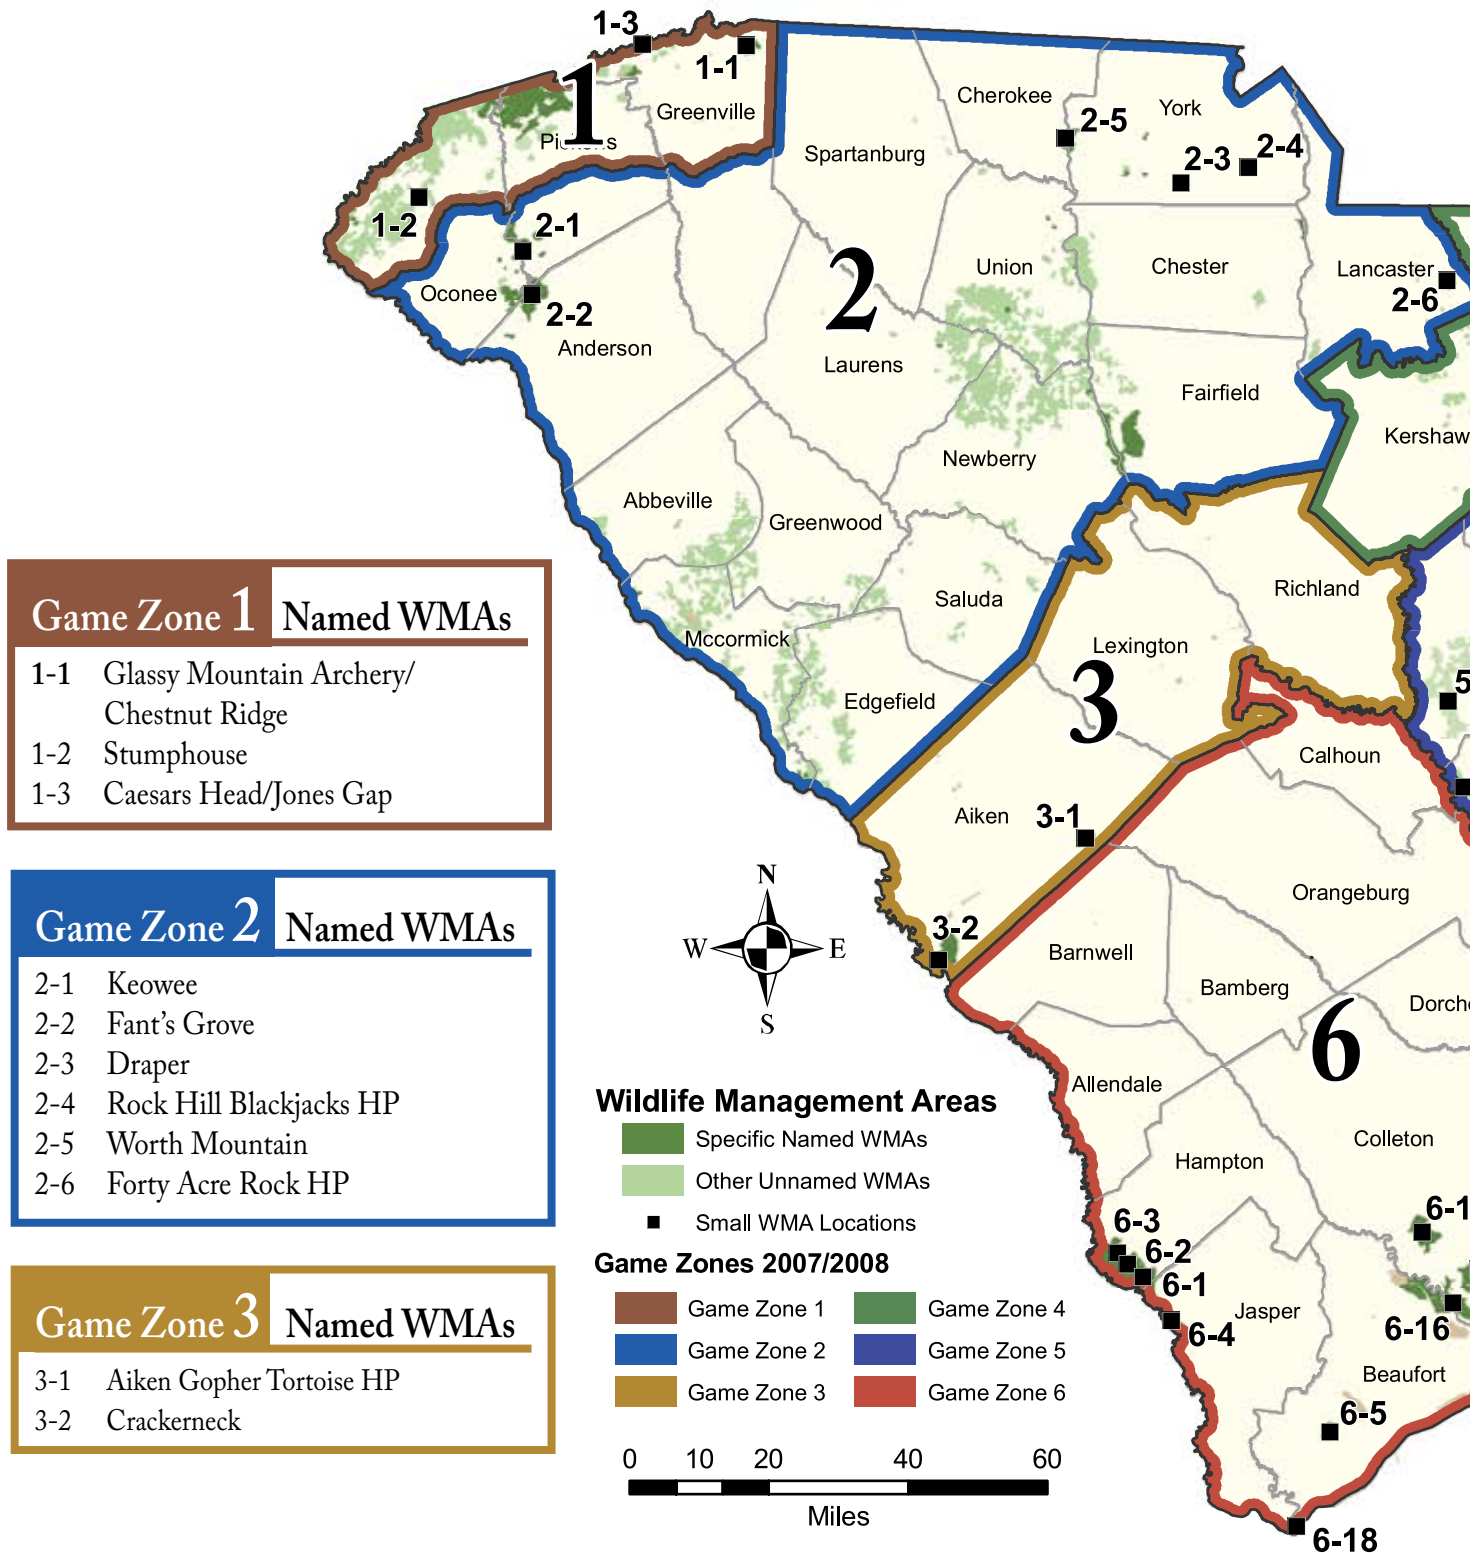

WMA properties should be marked with these yellow and black signs.

Open dates for each season are listed in the Hunt Seasons section beginning on page 44 of this book. Note: \* indicates SCDNR Property.

# Named Wildlife Management Areas

There are two types of property included in the Wildlife Management Area Program: “**specific**” named WMA’s and “**other**” unnamed WMA’s. Other WMA lands occur as scattered tracts, often leased from private landowners and forest industry. The hunting seasons for these unnamed properties are set by Game Zone with all the “other” WMA tracts within a particular Game Zone having the same seasons. These ‘other’ WMA lands are shown as unlabeled green tracts on the WMA maps.

“Specific” WMA’s are generally larger tracts of land, many owned and managed by DNR and have special seasons. These “named” WMA’s are shown as labeled dark green tracts on the WMA maps. The hunting seasons for named WMA’s are listed within each Game Zone.

WMA properties should be marked with these yellow and black signs.

For detailed maps showing all WMAs, contact your local DNR Wildlife Management Office (see page 61) or write: WMA Maps, P.O. Box 167, Columbia, SC 29202 (803) 734-3886. Request by county of interest.

## Thank You!

Manufacturers of hunting and fishing equipment (arms, ammunition, manufactured fishing tackle) support the programs of the South Carolina Department of Natural Resources through the collection of an excise tax at the federal level. These taxes are pro-rated to state fish and wildlife agencies to assist in the management and conservation of natural resources throughout the states. For the past 60 years, these funds have achieved results in wildlife management and conservation through a public-and private-sector partnership that includes the U.S. Fish and Wildlife Service, State fish and wildlife agencies, firearms, fishing tackle and boating industries, and hunters, shooters, anglers and boaters. THANKS go to the hunting and fishing industries for supporting this important program!

## Thanks to Landowners

Landowners providing their land for public hunting and recreation are due much appreciation from SCDNR and all outdoor enthusiasts. Without these lands, public hunting as provided in this state would be impossible. Sportsmen seeing the yellow and black diamond-shaped signs designating WMA boundaries should remember they are hunting as guests of the landowner and be respectful of this privilege.

"Feral hog hunting on WMAs is permitted during any open season for game unless otherwise restricted (see specific WMAs). A hunting license and a WMA permit is required and hunters are required to wear a hat, coat or vest of solid international orange color while hunting. Hogs may not be transported alive. Hogs may not be hunted at night. For special hog hunts with dogs, no more than 4 bay or catch dogs per party, no still or stalk hunting permitted. One shotgun per party(buck shot only). Handguns allowed.

Swine brucellosis is caused by a bacteria and is primarily a reproductive tract disease in wild pigs that can be transmitted to humans. Infections are manifest by flu-like symptoms including fever, headaches, muscle and joint soreness and weakness. The fatality rate in humans is very low, but the disease often is prolonged and debilitating. Humans have contracted swine brucellosis from handling and dressing wild swine. This disease is present in many wild hog populations in SC. Persons dressing wild swine should take the following precautions: 1) use disposable rubber gloves and protective eyeglasses while dressing the carcass 2) minimize handling of the reproductive tracts of both sexes 3) dispose of waste parts by burying or burning 4) clean up with hot water and soap after processing and 5) cook meat thoroughly to 160 degrees F prior to eating.

# Wildlife Diseases

## Chronic Wasting Disease

Chronic Wasting Disease or CWD is a Transmissible Spongiform Encephalopathy (TSE) that affects deer and elk. TSE's are fatal neurological diseases characterized by degeneration of the brain. CWD attacks the central nervous system and presents symptoms including extreme weight loss, excessive salivation and urination, odd behavior and poor coordination. The disease is infectious, communicable and always fatal. CWD has a prolonged incubation period and no current test exists to detect the disease in live animals. Diagnosis requires examination of the brain or lymph nodes.

The CWD agent is believed to be a prion, a mutated protein that causes normal proteins in the body to fold abnormally, which causes sponge-like holes in the brain. It is not known exactly how CWD is spread, but it is believed that the agent may be spread both by direct animal-to-animal contact and indirectly by contact with a previously contaminated surface like the soil.

There is no indication that CWD of deer and elk can be transmitted between species other than cervids (deer family), and both the World Health Organization and federal Centers for Disease Control have indicated that there is currently no indication that the disease can infect humans.

Although the disease has not been diagnosed in South Carolina, it has been found in the

following states: Colorado, Illinois, Kansas, Minnesota, Montana, Nebraska, New Mexico, New York, Oklahoma, South Dakota, Utah, West Virginia, Wisconsin, Wyoming and the Canadian provinces of Alberta and Saskatchewan. Hunters traveling to these states should only bring the following carcass parts into South Carolina: quarters or other portions of meat with no part of the spinal column or head attached; meat that has been boned out; hides with no heads attached; clean (no meat or tissue attached) skulls or skull plates with antlers attached; antlers (detached from the skull plate); clean upper canine teeth, also called "buglers," "whistlers" or "ivories;" and finished taxidermy heads.

Surveillance conducted by DNR on approximately 2,000 deer over the last 5 years continues to provide no evidence of CWD in SC. South Carolina should continue to have low risk for CWD for two reasons. First, South Carolina is geographically far from any known CWD. Second, there is evidence that movements of deer/elk for commercial purposes may have played a role in the spread of CWD, and DNR has historically had a closed-door policy on importation of cervids for commercial purposes like deer farming or ranching. Please, do not tolerate illegal activity or behavior that threatens your hunting tradition. You can proactively protect South Carolina's deer population by reporting illegal importation of deer or elk by calling 1-800-922-5431.

## Avian Influenza

Avian Influenza (AI) is a Type A influenza virus that naturally occurs in certain types of waterfowl and shorebirds around the world. Recently, a highly pathogenic AI has been found in domestic and wild birds in Asia, parts of Europe and North Africa. In these cases there have been significant mortality in infected birds, and humans have become sick from handling the sick birds. Most alarming is the fact that the death rate among the infected humans has been extremely highly, averaging about 50%. At this time the experts believe that this is still primarily a bird disease, and the transmission of the virus from birds to humans does not occur easily. The documented human cases have been associated with close contact with infected poultry and wild birds.

The good news is that extensive sampling of domestic and wild birds has been done in North America including South Carolina. To this date, the virus creating the problems in other parts of the world has not been found on this continent. The SCDNR will continue to monitor shorebirds and waterfowl for the occurrence of this, and similar, viruses.

There is no need to panic. It is uncertain how this virus will move and change over time. Hunters should always pay attention to wildlife while afield. Report only multiple dead bird findings to SCDNR, except for birds of prey, as single dead birds are usually the result of various natural causes. Hunters should continue to hunt, take and dress game, cook it properly and eat it. All game should be dressed very soon after harvest and those dressing game should wear protective gear like rubber gloves and eye glasses. All game should be cooked to an internal temperature of at least 160 degrees Fahrenheit.
